(For those who don't want  
to drink the water)

## It rained and rained by Evan Kramer

The City of Port Orford switched over to drawing water from Garrison Lake on Thursday afternoon at 1:15pm. The change from Hubbard Creek water to Garrison Lake water was caused by last week's rains which increased turbidity to unacceptable levels in the Hubbard Creek water supply. The excess silt in the water was caused by road construction above the reservoir which included shaving the side of a hill exposing a large mass of serpentinite.

The Sixes Grange sponsored a meeting at their hall last Friday night concerning the city of Port Orford's water supply. A large group of citizens attended the meeting. Dean Madison, city manager of Port Orford attended the meeting along with County Commissioner Terry Hanscam and D.E.Q. employee Ruben Kretzschmar.

Madison and Hanscam answered questions during the hour and a half meeting. Madison stated the city determines if the lake water is safe to drink, and that it is safe. He also said he has no problem drinking lake water and is a heavy drinker (of water.) He told the audience that the cost to the city so far been under \$5,000. Members of the audience were vociferous in their desire that the property owner (Bussmann) pay for all the city's costs due to changing water source and any damage to the

reservoir. Madison said the city had hired an engineering firm to do a study of the silt levels in the reservoir now and at a future date. This accounted for the largest share of money the city has spent so far. Someone asked if there was seepage into the lake from the closed county waste site. Dean referred them to the Umpqua test. The last complete testing of Garrison Lake water was done in September, 1992. The test was conducted by Umpqua Research Company of Myrtle Creek, Oregon. The water sample was taken from the now closed Pinhurst Dock. Umpqua tested for heavy metals including arsenic, barium, lead, mercury and selenium. The results showed the lake water levels of these elements at or below EPA standards in every case. Umpqua also tested for organics in the water including endrin, lindane, methoxychor, taxaphen, 2,4-D and 2,4,5-TP (Silvex). I spoke with Dennis Gehrke and Dean on Tuesday afternoon, December 7 and they told me

the city has hired Umpqua Research to do a similar test on lake water immediately. This will cost approximately \$1,800.

The city also had a test conducted by Coast Medical Lab of Coos Bay drawing water from the lake on December 3. Their microbiological analysis indicated an absence of coliforms and fecal coliforms in the water. People at Friday evening's meeting expressed a lot of concern over the contents of the city drinking water and this test is something the people want.

Some of the other things that came out at the meeting were that the Bussmann property is zoned R-2 meaning housing sites can eventually be developed on it. It was stated that the failed septic systems around the lake had been repaired though which specific houses were involved wasn't made clear. The 1989 report that Ruben Kretzschmar referred to at the

When you get your credit card bills in January, you'll know why they advertised it as, "the gift that goes on giving!"

Not all resolutions are made on New Year's Day. Christmas Eve is the day when many people resolve to do their Christmas shopping early next year.

## The Christmas Tree That Gives by Evan Kramer

Can you believe Christmas is a short two weeks off? I can just hear all the groans from people who aren't ready yet. More gifts to purchase, decisions on who gets what, have to go select a tree, send everything off in time for it to get there.

One of Port Orford's nicer traditions is back with us this year. It's called the Giving Tree and what it is, is two Christmas trees. One is at the Port and Starboard Restaurant and the other is at the Wheelhouse restaurant. Each one has a large number of tabs hanging on it.

The object is to have people pick a tab or tabs and for each one, buy a gift for a child. The tabs will tell you the age and gender of the child. So you take a tab and bring back a gift that goes under the tree by December 19. On that date the gifts will be assembled and then distributed to the young people.

**Goodbye to a Good Guy  
by Evan Kramer**

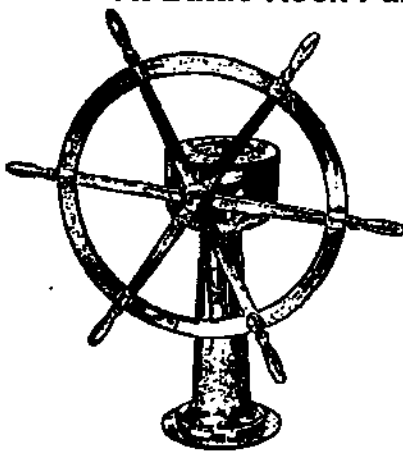

On Saturday evening, December 4, Doyle Greene was killed when he was struck by a car while crossing Highway 42. Doyle had seen a vehicle flip over and go into a ditch while driving to Coquille. He stopped his car and attempted to run across 4 lanes of traffic to aid the occupants of the car which had flipped over when he was struck by another car.

Doyle's funeral was held in Port Orford at the Port Orford First Community Church on Wednesday morning with burial later in Coos Bay. Doyle owned and operated Western Builders Supply in Port Orford along with his wife Edna and his brother-in-law Glenn Robertson.

I have served with Doyle for the past two and a half years on the Port Orford Rural Fire Board. Doyle had been elected earlier this year to another four year term. His presence on the rural fire board will

good meal**

332-1605

be sorely missed. The board is moving closer to a decision on purchase of a new fire truck and Doyle brought a tremendous amount of working knowledge on heavy trucks to the group. Doyle was a hard worker and very well liked by those who knew him. It says a lot about this man that this accident happened to him while trying to help another person in trouble.

Memorial contributions can be donated to the Doernbecker Children's Hospital located in Portland. They can be made at any branch of Western Bank or locally at the Western Bank in Bandon, P.O. Box 39, Bandon, OR 97411.

We'll miss you Doyle.

### Huckleberry's Hints

Things have really been busy here since Evan and Valerie got back from their trip! Even my usually "cool kitty" Head has been spinning with all the new hot set-ups.

Along with the new computer hardware and software they bought 55 movies to add to their already huge selection.

There is something for everybody from **The Muppet Christmas Carol**, the newest Christmas movie, to some old classics like the **Buddy Holly Story**, with Gary Buscy in an excellent portrayal of the true father of rock'n'roll.

Then there are all these new releases I can't wait to see, but they get rented every night! Oh, well, there are plenty of great movies to keep me occupied while I wait. Come in and look for some great entertainment.

**Blues Concert in Port Orford**

The renowned blues band, **Samual and the Waders**, swing into Port Orford this Friday night, December 10, for a dance concert. They'll play at Pete Lenihan's beautiful Star Theater located on Highway 101 next to Bartlett's restaurant.

The music starts at 8:00pm. Tickets are \$6.00 and available at the door the night of the performance.

The theater has a good sized dance floor located in front of the stage in addition to a couple of hundred comfortable seats. There is easy parking available in front of the theater and in the immediate vicinity.

**Kramer's Law of Computers:** It works better when you plug it in.

**Corollary:** It helps to turn it on too.

### Letter to the Editor

Due to vandalism by three teenage girls and theft of animal statues from our property, we are forced not to decorate the exterior of our home for Christmas. It's a shame that we have to do this because these girls are unsupervised due to their parents having to work.

It all started when three teenage girls were caught red handed pulling up flowers

by the roots in our yard and throwing them by the side of the road. Since then, one owl statue was taken from our yard and put in a neighbor's front yard, more flowers pulled out by the roots and a Century 21 For Sale sign was uprooted and thrown across the street.

Two weeks ago the owl and one raccoon were stolen. We put a sign, "Hey thief, you forgot me" on the one remaining raccoon. The thieves took the last

remaining raccoon and left a sign, "Got your raccoon, sucka".

George Armstrong  
 Port Orford

Only during the Christmas season will your neighbor keep you awake till the wee hours with his loud stereo playing, "Silent Night."

You know who really hates Christmas? Just ask any letter carrier!

## Public Notice

The City of Port Orford is now taking water from Garrison Lake instead of from Hubbard's Creek, where we normally get our water.

The City was forced into changing to the lake as a water source due to road building upstream from the city property and impoundment on Hubbard's Creek. The road building, plus the recent rains, has made our branch of Hubbard's Creek too muddy to use as a water source.

The water we are now taking from the lake is filtered and treated in our treatment plant and is safe to use. It meets or exceeds all of the state specifications for drinking water.

As soon as we are sure that Hubbard's Creek is stabilized enough to use as a public water supply we will once again take our water from that source.

Although not the city's fault we apologize for any inconvenience that this may have caused you.

Dean Madison  
City Manager

"Designated drivers on duty"

Did you ever wonder how it is that everyone always seems to get more Christmas cards than they sent? Is it some sort of secret plot by the Postal Service? Or maybe there's some lonesome old guy somewhere who sends out millions of cards but never gets any back? Well, whoever is responsible, Happy Holidays to you! Just remember, if you get your addresses wrong, the Postal Service will bring you many happy returns!

**We will be Closed**  
**Dec. 19 - Jan. 3**  
**Re-open Jan. 4**

*Season's Greetings*  
*Have a happy Holiday!*

## Whale Watching Seminar

This is it! This weekend, Port Orford will be hosting our second whale watching seminar at the Port Orford City Hall council chambers from 9:30am to 3:30pm. I encourage everyone who wants to learn more about our whales to take advantage of this great opportunity. Families are especially encouraged to come and join the fun. Over 30 people along the South Coast have already signed up. The program will be given by Don Giles. It is sponsored by the Oregon State University Hatfield Marine Science Center, and the Oregon State Parks and Recreation.

Because he insisted that our seminar be free, Giles wasn't given any travel expenses. Do we have a great surprise for him! In true Port Orford fashion, several businesses have generously helped out by hosting Don and his wife. I'd like to extend my deepest appreciation to Joyce Spicer, Alan Mitchell and his "Home By The Sea" bed and breakfast,

The Truculent Oyster, The Wheelhouse, and our new Crazy Norwegian. State Parks has also generously offered to provide the handouts for all who attend. We all owe these people a big "Thank you".

We will be having a lot of fun! We hope to fill the room. Anyone wishing to help with refreshments can call me at 332-3771. Again thank you Port Orford. Hope to see many of you there.

Cheryl Douglass  
Sixes, Oregon

## Sixes Grange Meeting

The Sixes Grange will met on Friday evening, December 10, at 6:30pm at the Grange Hall.

The agenda will include a potluck dinner and a business meeting.

When you get a beautiful, high-quality printed Christmas card from your insurance salesman, bank, or other business, it's hard not to reflect on the fact that no matter how much sentiment there is in business, there's still much more business in sentiment!

I apologize for repeating this but I just read that the first Christmas was a myrrh'y Christmas. Groan!

**Deck The Halls**

The "old and new" Sixes Grange, will be having a dessert potluck and Christmas party on Sunday, December 19, from 2:00 - 6:00pm.

For our listening pleasure we'll have Pete Lenihan and his jazz makers pumping out Christmas tunes and jazz standards we all know and love. We are pleased to announce, The Larks, a Bandon based acapella group, will also be performing a few carols and other goodies, along with or own hometown acapella vocalists.

We will be having a wreath making party on the Friday, December 17, from 1:00-5:00pm in preparation for the Christmas gathering. Anyone interested in coming out to help the Grange Hall with boughs of holly and glitter are encouraged. We ask that if possible, bring along something free of fancy, such as greenery of any and all sort including ribbons, dry flowers, holly, clippers, gloves, small wire, pinecones, cookies, wire coat hangers, Italian lights, tinsel and any other decorative ideas. All that we make at the party will be hung at the Grange for 2 days and then can be taken home with you after the party on Sunday. For more

## Perinatal Program

The Curry County Perinatal Program nears completion of its fourth full year providing clinic, hospital and home care for low income pregnant women and their families. Since the program began in January, 1990 the rate of inadequate prenatal care in Curry County has dropped from 9.3% in 1989 to an exceptional 3.6% in 1992. Coos County's rate of

inadequate care was 8.5% during this same time period. The state averaged 6.1. Statistics for 1993 are not yet available.

The Curry County Perinatal Program totals about 75 births per year and provides prenatal care to more than 100 women yearly. Approximately 200 babies are born to Curry County residents each year.

The Perinatal program is an effective public private partnership of the Health District, County Health Department and private practitioners.

Prenatal and postpartum clinics are held at the Health Department with deliveries most often at Curry General Hospital. All clients receive home visits from registered nurses during pregnancy and after the baby arrives as part of Maternity Case Management.

In 1994, perinatal care will continue to be provided by the Health Department and Curry General Hospital staff, Ted Taylor, D.O., Reg Williams, M.D., and Michael O'Gara, D.O., as well as registered dieticians Linda Zia and Bea Nash. Michael McKeown, M.D. From the North Bend Medical Center is the primary obstetric consultant to the perinatal program.

Friday afternoon, December 10 starting  
at 1:30pm in the Gold Beach Courthouse  
Annex building. The public (that means  
us) are invited. This is an excellent  
opportunity for people concerned about  
their water supply to get personally  
involved.

The city keeps track of the turbidity level  
in Hubbard's Creek on a daily basis from  
three reporting stations, one located at a  
point along the reservoir and the other  
two located where the two forks of  
Hubbard's Creek flow into the reservoir.  
On Monday and Tuesday of this week the  
turbidity level at station 2 (coming from  
Bussmann property) registered 26. On  
Wednesday, December 1 it registered

85. A reading of 4 or higher is already  
unacceptable. The water flowing into  
the reservoir looks like chocolate milk at  
this point.

Toward the end of Friday's meeting it  
was requested that the city issue press  
releases informing the people of what is  
going on with the water situation.  
Madison said he would make an effort to  
keep the papers supplied with  
information. We welcome anything they  
can provide us with, and will be glad to  
print it (subject to available space.)

The next meeting of the Port Orford City  
Council takes place on Monday night,  
December 13 starting at 7:00pm in the  
council chambers. Water will be on  
many of the minds of those in attendance.

One small concern overshadowed by the  
larger problems is the temporary loss of  
the Pinhurst dock and boat launch. The  
dock is a fishing spot for some while for  
others it is a place to go watch the abundant  
bird and animal life that makes Garrison  
Lake such a treat and for some a place to  
launch their canoe or boat. It is one of the  
very few public access points on the lake  
and will be missed.
